The line graph displays the daily count of posts for the 'number' variable over a 30-day period. The y-axis, labeled 'No of Posts', ranges from 0 to 60. The x-axis, labeled 'Day', ranges from 0 to 30. The data shows high volatility, with a major peak of approximately 70 posts around day 15. Other notable peaks occur around day 10 (approx. 62 posts) and day 28 (approx. 60 posts). The number of posts frequently drops to near zero, particularly around days 5, 9, and 30.
